

TERREWODE Womens Hospital: A Tribute to Skyline Residents

Friday October 28 at 3 pm Mt. Baker Room

Dr Gordon Perkin led early efforts to build a hospital in rural Uganda to address the unmet needs of women who had suffered childbirth injuries and required surgical repairs to resume a normal life. It is the only hospital in Uganda devoted exclusively to the care of women.

Members of the Board of Directors of the TERREWODE Women's Fund will come to recognize Dr. Gordon Perkin, Bill Eisiminger, James Woodcock, and the Skyline Friday Stitchers for their ongoing contributions to the Hospital.

Bill and James and the Seattle International Development Rotary Club spearheaded fundraising for installation of Solar Panels and a Water Well to provide constant source of electricity and clean water to the new hospital. Sandy Johanson was asked to join the Board of Advisors and enlisted the support Marilyn Webb and the Friday Stitchers to make some blankets for the hospital patients.

There will be a video presentation, remarks of recognition by Board members, explanations of the mission of the hospital, photos and blankets on display.

Come and hear about the contributions that Skyline Residents are making! This presentation is co-sponsored by the Health Care Committee.
