UW Medicine

MEMORY & BRAIN
WELLNESS CENTER

Promoting the well-being of those living with memory loss and their families.

Exceptional care. Innovative research. Community transformation.

Home to an NIH-designated UW Alzheimer's Disease Research Center

What's New at the Memory and Brain Wellness Center?

A view of the 'Garden of Inspiration' art show in Maude's Garden at the [Memory Hub](#), our dementia-friendly community center on September 21, 2023. The show, co-hosted by Elderwise, featured art created by the Memory Hub community and visitors. The paintings, weavings, glass art, pressed flowers, and photography were all inspired by the Memory Hub and the garden they were displayed within. Thank you to all who contributed to and supported this exhibit.

Upcoming Events

Join us for an educational and inspiring afternoon with national award-winning speaker Loretta Veney!

WEDNESDAY, OCTOBER 11

Loretta Veney Workshop

Date: Wednesday, October 11, 2023 | 1-4 pm

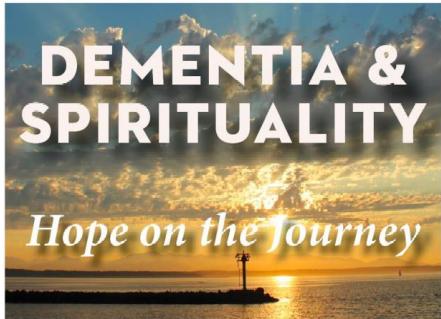

Location: Central Area Senior Center | 500 30th Ave S, Seattle

1-2 p.m. Caregiver Workshop
Understanding Alzheimer's and What to Expect: Learn the symptoms of each stage of the disease and come away with strategies for handling common caregiving challenges

3-4 p.m. LEGO "Building Memories" workshop: In this unique demo, discover ways to use LEGO bricks to build connections with people living with memory loss.

Offered in partnership by the UW Memory and Brain Wellness Center, Aging and Disability Services, and the Alzheimer's Association. Light refreshments included.

Register by calling **206-726-4926** [Flyer](#)

WEDNESDAY, OCTOBER 4 - 6:45 - 8:15 P.M.
AT SAINT MARK'S EPISCOPAL CATHEDRAL + ZOOM
1245 10th AVE. E - Seattle, WA 98102

A Collaboration with St. James Cathedral

Dementia & Spirituality: Hope on the Journey

Date: Wednesday, October 4, 2023 | 6:45 pm - 8:15 pm PT

Location: St. Mark's Episcopal Cathedral or Zoom

A collaboration with St. James Cathedral, St. Mark's Episcopal Cathedral

Come learn more about what dementia is, its impact on the people living with the disease and their caregivers, and ways to provide support along the journey. MBWC's Dr. Tom Grabowski, MD, is a speaker at this event.

Leqembi Webinar

Our team hosted a webinar on the newest approved drug for early Alzheimer's disease, lecanemab (brand name: Leqembi). The [recording of the webinar](#) is here for you to review at your leisure.

MBWC News & Stories

Jeanne Gallée and the Role of Speech-Language Services in Dementia Care

People living with primary progressive aphasia (PPA), or other forms of dementia that affect language and speech, have difficulty with naming objects, finding words, or pronouncing words. But through speech-language therapy, these people can learn ways to compensate and better participate in life.

In a [commentary article](#) published in the August 2023 issue of *Neurology Clinical Practice*, Gallée explores the important but underappreciated role of speech-language pathologists in dementia care. The motivation for the article, she notes, came from the need to advocate for earlier and more frequent referral to speech-language services for people living with PPA.

Gallée also shares her recommended resources and support groups for people living with PPA and their families.

> [Sign up](#) for the [Memory Hub Newsletter](#) for much more!

> [View our calendar](#) and sign up for additional programs, events, and tours.

Featured Research Study

PARTICIPATE IN ALZHEIMER'S DISEASE RESEARCH

Brain Imaging to Understand Memory Concerns

This study at the UW Integrated Brain Imaging Center uses brain imaging to understand the changes in the brain that may be responsible for memory problems in old age and associated disorders. Your participation will contribute to scientific research that may help us understand more accurate ways to measure brain vessels and how they are involved in disorders like Alzheimer's disease. [Learn more.](#)

[View all Enrolling Clinical Trials & Studies](#)

Professional Development Resources
